

Mohamed Sobhy

Junior Software Testing / QA Engineer

01227221819 | Cairo | mohamedsobhyayesh@gmail.com |  Mohamed Sobhy  mohamedsobhy

PROFESSIONAL SUMMARY

ISTQB Certified QA Engineer with hands-on experience in manual and automated testing across web, mobile, and API layers. Skilled in designing test cases, executing regression and exploratory testing, and building automation frameworks using Selenium, TestNG, and Cucumber (BDD). Strong foundation in SDLC/STLC, defect lifecycle management, and Agile collaboration.

EXPERIENCE

Software Tester Intern

Sep 2026 – Present

Fixed Solutions

- Executed manual and automated test cases for web and mobile applications across functional, regression, and usability testing
- Logged and tracked defects using bug tracking tools, ensuring clear and accurate documentation
- Designed test scenarios and validated results in collaboration with developers and QA team members
- Participated in Agile ceremonies, including stand-ups, sprint planning, and QA reviews

Software Tester Intern

Jul 2026 – Present

Kader Associates Designs

- Designed and executed test cases for functional, negative, boundary, and authorization scenarios
- Delivered full QA documentation, including Test Plan, RTM, Bug Reports, and Regression Suite

Software Testing Trainee – Digilians Intensive Diploma

Jan 2026 – Jun 2026

Ministry of Communications and Information Technology (MCIT)

- Completed 252 training hours (126 sessions)
- Designed and executed manual test cases including functional, regression, and bug reporting activities
- Tested APIs using Postman and REST Assured
- Developed automation scripts using Selenium WebDriver, TestNG, and Cucumber
- Performed database validation using SQL and executed performance testing scenarios using JMeter

Information Technology Specialist

Sep 2024 – Dec 2025

EDGE Pro for Information Systems

- Provided IT support and resolved software, hardware, and network-related issues.
- Maintained system performance and data accuracy while assisting end users with technical troubleshooting.

PROJECTS

QPilot AI – Multi-Agent QA Assistant | *Python, FastAPI, OpenRouter, PostgreSQL, Qdrant, n8n*

- Architected and deployed QPilot AI an AI- powered QA automation system that transforms requirement documents into structured QA deliverables (user stories, acceptance criteria, test scenarios, test cases).
- Designed a multi-agent workflow leveraging OpenRouter LLMs and Qdrant vector DB, generating 9+ QA artifacts in one pipeline; utilized n8n for workflow orchestration and PostgreSQL for artifact versioning.

Selenium Automation Framework | *Java, Selenium WebDriver, TestNG, POM*

- Developed a scalable UI automation framework using Page Object Model, reusable utilities, and explicit waits
- Implemented automated test execution, reporting, and data-driven testing practices to improve test maintainability

BDD Automation Framework | *Java, Selenium, Cucumber, Gherkin*

- Implemented Behavior-Driven Development (BDD) automation using Cucumber and Gherkin feature files
- Created reusable step definitions and automated end-to-end user scenarios for improved collaboration between QA and stakeholders

Mobile Testing Automation | *Java, Appium, Android Studio*

- Automated functional test scenarios for Android mobile applications using Appium
- Validated mobile UI interactions, navigation flows, and user actions across different app screens

Spotify Web API Testing | *Postman, REST API*

- Designed and executed **10+** functional REST API test cases using Postman
- Validated response status codes, response data, and audio features using Postman pre-scripts and automated tests

OpenCart E-commerce Platform | *Manual Testing*

- Designed and executed **356+** manual test cases covering core e-commerce modules
- Reported **23** defects across critical user flows with proper severity and priority classification

TECHNICAL SKILLS

Testing: Manual Testing, Functional Testing, Exploratory Testing, Regression Testing, Smoke Testing, End-to-End Testing, Mobile Testing

QA Concepts: SDLC, STLC, Test Planning, Test Case Design, Test Scenarios, Bug Reporting, Defect Life Cycle, Severity Priority, Requirements Analysis

Automation Testing: Selenium WebDriver, TestNG, Appium, Cucumber (BDD), Page Object Model (POM), Data-Driven Testing

API Testing: REST APIs, Postman, API Validation, Assertions, Collections, Environment Variables

Programming Languages: Java, Python, JavaScript, SQL

Tools: JIRA, Git, GitHub, Azure, IntelliJ IDEA

Methodologies: Agile (Scrum, Kanban), Behavior-Driven Development (BDD)

AI QA Automation: Prompt Engineering, AI-Assisted Testing, Multi-Agent QA Systems, n8n

Soft Skills: Analytical Thinking, Attention to Detail, Problem Solving, Communication, Team Collaboration

CERTIFICATES

ISTQB® Certified Tester Foundation Level (CTFL) v4.0
 Credential ID: 250513014

ISTQB® Certified Tester – Mobile Application Testing (CT-MAT)
 Credential ID: 260614064

EDUCATION

Benha University
B. Sc in Computer Science, Faculty of Computers and Artificial Intelligence 2020 – 2024

TRAINING & COURSES

ISTQB Foundation Level v4.0 – From Basics to Certification <i>Information Technology Institute (ITI) – MaharaTech Platform</i>	Feb 2026
Software Testing Course <i>Route IT Training Center</i>	Feb 2025 – Sep 2025
MEAN Stack Development - Summer Training <i>Information Technology Institute (ITI)</i>	Sep 2024 – Oct 2024
Software Testing - Summer Training <i>Information Technology Institute (ITI)</i>	Aug 2023 – Sep 2023

LANGUAGES

Arabic: Native **English:** Professional Working
